I wanted to see if we might check in briefly about CA's proposed plan to bring their Class II program into compliance. I'd like to circle back on the discussion that Leslie and Carrie advised us on last week about whether the rulemaking the state is undergoing may be a program revision and how we navigate this issue going forward. We met with the state today and this question was raised by their general counsel as well.

Just added Carrie and Pooja in case you can join and want to participate. If you're going to be in one room/office, let me know where to call, otherwise I can set up a line for us.

Thanks,  
Alexa
